Wind Power WindSurfing Academy favorite!

2002 – 2007 Mistral Prodigy

Fiberglas performance Hybrid board w/8.5 camber monofilm sail

Prodigy is an all purpose windsurfing board, is short, wide, and floaty. It's a very easy board for Beginners to learn on. It's also a fun board to race, and it has performance potential for experts.

The Prodigy has a centerboard, which means that in light winds you sail upwind with ease and cruise your area waters. In higher wind, the Prodigy planes up easily, with the centerboard up it sails up-wind like a Formula, it's very fast on reaches, and remains easy to control when over-powered. Since it was released in 2001, the Prodigy has become the top selling sailboards in the US. It's a very forgiving board, easy to tack and carves a smooth jibe.

Kids excel on the Prodigy using 1.7 to 4.0 sails

The Prodigy Comp Rig one of the best non-planning 8.5 rigs available today. When the wind picks up it can be depowered to handle winds well over 20 mph.

Wind Power's High Honors Student **Jan Gronewold**, smiling & ripping it up on his Prodigy! He sails a Prodigy Comp with an 8.5 Prodigy rig when He can't plan on his Mistral Explosion 135 and Naish 7.0 Amp sail.
Lake Winnebago, off Club Altmeyer Sept. 2nd 2007
